7.1.2 - 1. The Institution has facilities for Alternate sources of energy and energy conservation

- Roof Top Solar Thermal Water Heating System
- Use of LED bulbs, Tube
- Exhaust Fan for energy Conservation
 - Fresh Air Ventilation System

Alternate sources of Energy :-

Today's world requires an alternative to conventional energy sources. The Indian government promotes the use of increasingly more green energy. The college has taken the lead in developing strategies for alternative energy sources to promote energy conservator.

2. Use of LED bulbs, Tube :

Utmost of the CFL Bulbs and tubes have been replaced with LED bulbs. It has been decided that to save the energy, whenever old bulb or tube light stop working it has to be replaced by LED bulbs which further will be made mandatory. So far,120 bulbs and tube light are replaced by LED in the council demesne including all laboratory, department, office and library. At present LED bulbs are installed in theatre. In order to estimate total energy demand, “Energy Audit” have been carried out. The thing has been set to minimize the energy demand using the green practices.

7.1.2 – 2. The Institution has facilities for Management of the various types of degradable and non- degradable waste

Waste management

- Solid waste management
- Liquid waste management
- Bio-medical waste management
- E-waste management

1. Solid Waste Management

The management of solid waste is always given top priority by our college administration since poor solid waste management leads to filthy conditions in the campus environment and poses a threat to public health. The management of solid waste is currently a difficult technical challenge. The campus is equipped with huge trash cans for the separated disposal of waste. The grampanchat of mandavgan pharata offers the use of garbage trucks to collect solid, biodegradable, and non-biodegradable waste and has designated dumping areas for these materials. The college's administration and faculty frequently remind students, faculty, and non-teaching staff to use cloth bags rather than plastic ones. In the restrooms for women, incinerators are available for the sanitary and secure disposal of spent sanitary pads. Separate Solid waste in council premises is substantially waste paper. The waste generated in council is vended every time to the scrap yard. In services and other places we use one- sided habituated paper for reprinting.

2. Liquid waste management

The college has made proper drainage arrangements for toilets in the college campus as well as liquid waste from the hostels to manage the waste water. This water is managed by leaving the said water through the pipeline in the underground sewers made by the Gram Panchayat.

3. Bio-medical waste management

➤ Sanitary napkin vending and disposal machine

Menstrual hygiene is crucial for women's health, but it is often taboo. Colleges struggle with lack of sanitation facilities, leading to students missing lectures or dropping out. To improve safety, sanitary hygiene disposal machines can be installed in various locations, such as hostel and college, to provide immediate access to sanitary napkins during emergencies.

Our lady faculty members are always try to educate and guide the girls regarding the disposal of sanitary pads in a proper way. The college has installed **four sanitary vending and disposal machines for** women's sanitary napkins and cotton balls, ensuring cleanliness, hygiene, and protection from diseases. These machines also handle biomedical waste.

4. E-waste Management :-

The 21st Century is characterized by technology, with electronic devices essential for daily life. Proper disposal of used and damaged devices is crucial. For proper disposal of e-waste, the college collects the e-waste and It is deposited at Gram Panchayat Mandavagan Pharata

7.1.2 – 3. The Institution has facilities for **Water conservation**

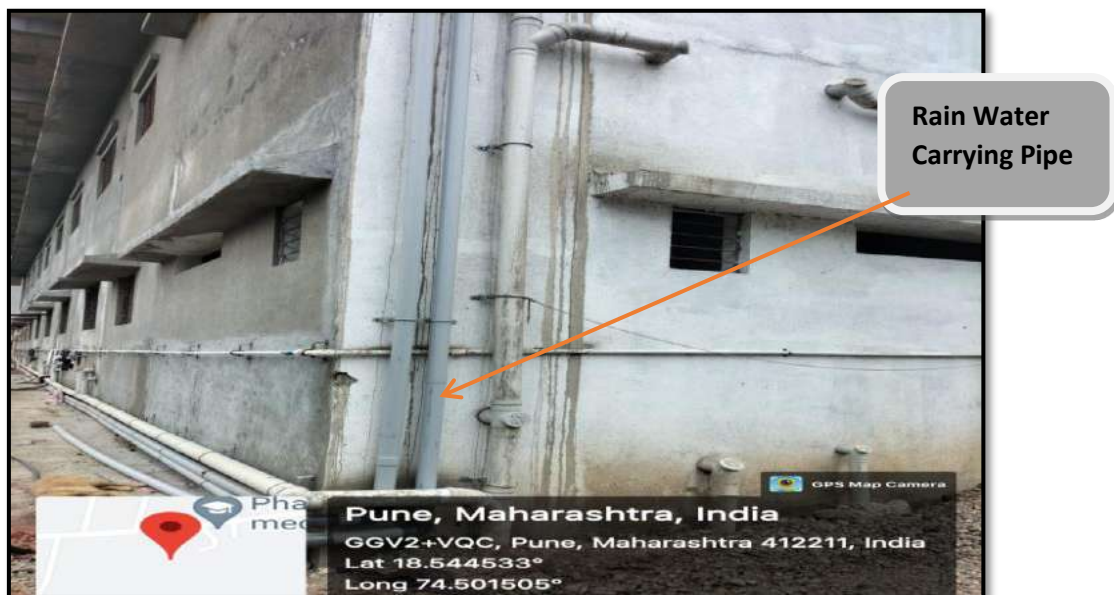

Water conservation

- Rain Water Harvesting
- Bore well or Open Well Recharge
- Construction of Tanks and Bunds
- Waste Water Recycling
- Maintenance of Water Bodies and Distribution System in
Campus

1. Rain Water Harvesting

College harvests rainwater annually to conserve water, addressing wasted resources through preliminary structure. College collects, filters, and stores clean rainwater annually using an effective method. Rainwater harvested from building terraces is stored in tanks, distilled, and used in various facilities.

Rain water collection

2. Bore well/open well recharge :

College constructs Four bore wells and one open well, collecting rooftop water from building blocks for recharge. The water is recharged through rainwater using it for science experiments and practical. This cost-effective method conserves energy without transportation and distribution costs.
